### **A Report on Observation of National Science Day-2024**

National Science Day-2024 has been observed by Sri Ramkrishna Sarada Vidya Mahapitha in the college campus on 28 February, 2024. The National Science Day is celebrated every year throughout the country on February 28 to commemorate the discovery of Raman Effect, a phenomenon of the scattering of light by molecules of gases, liquids or solids. Celebration of National Science Day aims to propagate the importance of science and its applications among various people of our society. The theme for National Science Day 2024 was 'Indigenous Technologies for Viksit Bharat'. The theme promotes the achievements of Indian scientists to address the scientific challenges through home-grown technologies.

Department of Physics observed the day in collaboration with IQAC by organizing a student seminar. The programme started by presenting opening remarks on the motivation behind science day celebration by one of the faculty members of the Department of Physics. Keeping the theme for this year's Science Day in mind, two students from the Physics Department then delivered a presentation on the Aditya-L1 Mission, the first observatory-class space-based solar mission from India. Dr. Mausumi Ghosh, Principal of this college and teachers of various departments were present in the programme. Around 20 students from different departments of the college attended the seminar. At the end of the programme, prizes have been distributed among the speakers by principal madam. She encouraged and motivated the speakers to put efforts to achieve excellence in their lives. The programme ended on a note of optimism about the participation of students in the upcoming years.
